ABOUT

I'm purposeful and highly motivated manual QA Engineer with experience in software testing of web and mobile applications. I worked with Scrum and Kanban methodologies

WORK EXPERIENCE

QA ENGINEER
PR3 Marketing Service | Dec 2021 - Jul 2022

The QA in Team of QAs, Developers, PO and BAs. I worked with web and mobile applications. My responsibilities:

- working with requirements (User Stories, Specification) and estimations;
- web and mobile testing (functional, regression, smoke, exploratory);
- writing test documentation (checklists, test cases); reporting and verifying bugs and improvement tasks;
- participating in meetings (QA sync, Daily status, Retro)

QA ENGINEER
Startup | Mar 2021 - Nov 2021

The only QA Engineer on the project. I performed general QA activities, such as:

- reviewing and testing requirements;
- writing test documentation (checklists, test cases);
- reporting and verifying bugs and enhancements;
- communicating with the developer team;

SALES MANAGER
LLC "MegaSkladPlus" | Feb 2018 - Jun 2021

- Represented the firm at sales shows and exhibitions.
- Maintain close working relationship with both existing and new customers.
- Work with management to develop sales strategy and lead programs based on customer feedback and company vision.
